

External CSS and Responsiveness

- This is how I linked an external file of CSS to my project

```
6
7  /* Navigation Styles */
8  .navbar {
9      background-color: #333;
10     overflow: hidden;
11     padding: 30px 20px;
12     position: fixed;
13     width: 100%;
14 }
15
16 .nav-list {
17     list-style: none;
18     padding: 0;
19     margin: 0;
20 }
21
22 .nav-list li {
23     float: left;
24     margin-right: 20px;
25 }
26
27 .nav-list a {
28     text-decoration: none;
29     color: white;
30     font-weight: bold;
31     padding: 10px 20px;
```
