Layout and Menu Elements

• Here is this the code for creating the layout and menu together with the add-ons that I created from the early challenges.

• **Menu layout code html:**

```html
13
14          '<!-- Navigation -->
15          <nav class="navbar">
16              <div class="menu-toggle" id="mobile-menu">
17                  ≡ Menu
18              </div>
19              <ul class="nav-list">
20                  <li><a href="#home">Home</a></li>
21                  <li><a href="#about">About</a></li>
22                  <li><a href="#songs">Songs</a></li>
23                  <li><a href="#albums">Albums</a></li>
24                  <li><a href="#contact">Contact</a></li>
25              </ul>
26          </nav>
27          <!-- Main Content -->
28          <div class="content">
29              <section id="home">
30                  <h1>All About Adie</h1>
31                  <p>"Adie's Melodies: Weaving Emotions into Every Note, Painting Stories with Every Song."</p>
32              </section>
```

• **Menu layout code CSS:**

```css
