Implementation of head tags

• In my previous challenges regarding to my project, I already Implemented the head tags, and this is how I implement it:

```
26          </nav>
27          <!-- Main Content -->
28          <div class="content">
29              <section id="home">
30                  <h1>All About Adie</h1>
31                  <p>"Adie's Melodies: Weaving Emotions into Every Note, Painting Stories with Every Song."</p>
32              </section>
33
34              <section id="about">
35                  <h2>About Adie</h2>
36                  <div class="container">
37                      <div class="two-column">
38                          <div class="media">
39                              <img src="images/about-img.webp" alt="Adie's Media">
40                          </div>
```

Result:
