Website Goals:

1. **User-Friendly Interface:** Design an intuitive and visually appealing website that is easy to navigate, ensuring a seamless and enjoyable user experience across devices.

Plan:

1. Website Structure:

Homepage:

- Engaging welcome message.
- Dynamic feed of the latest news and updates.
- Feature section for highlighted content.

Biography:

- In-depth exploration of Adie's background, career milestones, and personal journey.
- Interactive timeline for a chronological view of significant events.

Media Gallery:

- Organized sections for photos and videos, spanning various aspects of Adie's career.
- User-friendly navigation and categorization.

Updates Section:

- Regularly refreshed content with the latest news, releases, and event details.

Community Hub:

- Comment sections for each post, promoting engagement.
- Integration with social media platforms.
- Consideration of a forum section for fan interactions.

2. Content Management:

3. Mobile Responsiveness:

- Optimize the website for seamless user experience across desktops, tablets, and smartphones.

4. SEO Optimization:

- Implement SEO best practices to enhance the website's visibility on search engines.
- Use relevant keywords strategically in content and metadata.

5. Regular Maintenance:

- Routine checks for broken links and outdated information.
- Periodic updates to the website design to keep it fresh and aligned with current trends.
